

Choir/group registration (Singers participating in a choir/group with at least 15 participants):

1. The choir or group leader registers the choir via the Creative Kirche online shop and makes reservations for the expected number of singers (see button below "Reservierungsnummer anfordern").
2. The choir or group leader receives an automatic e-mail confirmation. A confirmation of the provisional reservation and the reservation code for the indicated number of singers will be issued shortly after.
3. Within a period of 6 weeks, all singers can register individually online via "Anmeldung" or via e-mail using the reservation code.

The reservation code expires automatically after six weeks and unused places will not be billed.

4. Having registered, each choir or group member will receive their registration confirmation and their own invoice.
5. The choir or group leader will receive an automatic confirmation e-mail each time a singer's registration has been processed in the portal. This confirmation email will not be sent in the case of registrations made by telephone or by e-mail.

Individual registration (Singers without choir membership):

Register via "Anmeldung".
